# Medical Surgical

Comprehensive line of  
products for all levels  
of care across the  
healthcare continuum

The vision:  
Build a global  
company  
focused on best  
practices in  
manufacturing  
and logistics.

Gerry LoDuca

## THE DUKAL VISION

In order to meet the ever changing conditions and challenges of our industry, DUKAL will continue to strive to be the best long-term strategic partner for all our customers in the markets we serve.

DUKAL was founded on the premise that we could bring value to the market by assisting our distribution partners with a brand of product that will function well and meet the needs of our collective customers. DUKAL recognizes that a one-product-fits-all approach will not work across all markets, and has expanded it's product offering so that there is a right product for the right application available. Product line extensions will continue to be a goal for DUKAL and as we expand our markets and as our product lines grow, the DUKAL value proposition can be realized by many customers.

DUKAL now, as always, will continue to focus on what is most important; delivering on our core principle of providing quality, value and performance which benefits our customers, employees and suppliers. This is our vision for the future and our commitment to you.

Sincerely,  
**Gerry LoDuca**  
President
